

e-BUILDER TIP OF THE MONTH

September 2019

Credit Potential Change Orders (PCOs):

Process Credit PCOs as separate Change Orders.

- At this time e-Builder system cannot recognize that a credit PCO must “approve” first when bundled with other PCOs

When credits/adds are bundled together, PMs are often seeing the following error message:

- Error Code Step #2
Comments:

Potential Change Order Process Approval Failed:

PCO – X – Budget Control Violation: Cannot proceed on commitment changes with line item PCO XXX, Budget Control will be violated.

- A ZBC to move budget dollars equal to the total of the additive PCOs, not the net total, would be required to move the CO forward.
- Avoid the frustration; process the credits as separate COs.

The background features abstract, flowing waves in shades of red, orange, and yellow, creating a dynamic and modern aesthetic. The waves are layered and have a slight gradient, giving them a three-dimensional appearance.
