EMPLOYEE OF THE QUARTER

Photo: Larry Snyder, Jim Hatch, Asa Schindler

June 2019
Larry Snyder

Larry's mentoring and willingness to share his institutional knowledge, as well as his unparalleled customer service. He consistently provides a high level of customer service while performing what is arguably the dirtiest job on campus.

- His dedication to his work is remarkable and he has a tremendous influence on the culture of his team.
- Larry has been an employee for over 40 years and is kind, respectful, hardworking, thoughtful, and 100% customer service oriented.
- He is often the first person to come in on after hour issues, often multiple times in a day or night and always with a smile.
- Larry shows the staff the critical shut off locations throughout campus and shows them how to deal with the variety of issues seen in SCL, from leaking hot water heaters to heating issues.
- He takes the time to explain in detail what components are most vulnerable and why.
- This past winter during the snowstorm, Larry spent the entire weekend on campus to ensure the new shift mechanics had a reliable resource to help resolve emergent issues.
- Larry is a patient mentor who really cares about the buildings and the people that occupy them.

Congratulations, Larry!
