

FACILITIES *and* CAMPUS SERVICES

Employee of the Quarter

January -
March 2020

Alyssa Fox provided real leadership in excellence, teamwork and respect on the engineering and design of SCL's Sheldon Court's reverse return heating system. This was a major effort to reinstate and improve the hydronic heating system. The various mini booster pumps that had been installed over time have all been removed, as this was impacting the flow of the reverse return system. All the students now had heat for the 2019 Winter.

Alyssa was nominated by Vincent Knapp.
The award was "virtually" presented by Rick Burgess.
