

2020 KEYSTONE AWARD

Brenda Conklin

Photo: Bobbie Brown, Brenda Conklin, Robert Pils and Hazel Hall.

Brenda Conklin has consistently demonstrated a high level of service to her customers while providing outstanding support to her team of custodians on a daily basis, as they support the important work that occurs at the Vet Medical School. During the COVID-19 shut down, Brenda made it a personal priority to report to work every day to support all of her employees and the building. Her support of the Dump and Run program, even though she was supporting a fully functional Vet Medical School was well beyond what anyone would have expected, but helped tremendously in supporting an important community program.

Brenda is dedicated to the safety of her staff, shows them trust, respect and appreciation and encourages teamwork through cross-training and weekly rotation shifts.

From Bobbie Brown: Brenda is a wonderful mentor at the Vet School complex. She has given our complex a much needed positive atmosphere, She teaches and guides our complex with new practices, as well as motivating our team to successfully complete projects within our complex.

Congratulations Brenda!

Brenda was nominated by Bobbie Brown, Robert Pils and Hazel Hall. The award was "virtually" presented by Rick Burgess.
