

# Employees of the Quarter

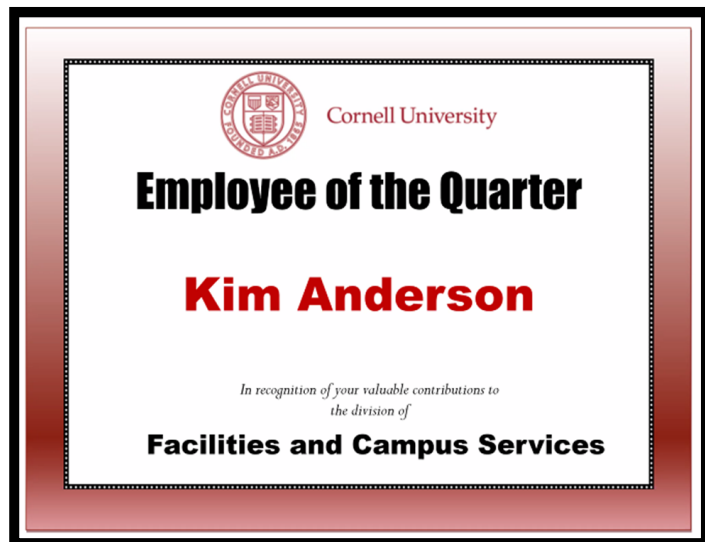

July, August, September 2020

**Kim Anderson** has made a number of exceptional contributions this quarter! Kim has been involved with campus reactivation as an active member of two implementation teams. She also lead the "Droughtreach" Outreach team in response to the 2020 drought. She worked tirelessly with student leaders to create a virtual orientation and piloted the Residential Sustainability Leaders program last fall. She also produced and facilitated The To Do List sustainability project, an unanticipated opportunity which added 100's of hours to her workload coming out of the SCC E&E process. *Thank you, Kim!*

Kim Anderson was nominated  
by Sarah Zemanick and Bert Bland.  
The award was presented virtually by Rick Burgess.
