FACILITIES *and* CAMPUS SERVICES

Glenn Cotterill gets involved with the most challenging projects. One of many examples is when he was asked to make green lighting on certain parts of campus for Veterans Day. Instead of sourcing green light bulbs, he used green gel which allowed him to create the effect within a week's time. It's this type of innovative thinking that allows him to solve the most complicated problems, yet he doesn't take credit and considers it "just doing his job". Glenn has been paving the way to make planning/scheduling successful for years and is our "go to" person for campus events. *Thank you, Glenn!*

Nominator, Darrell Reynolds

**Glenn Cotterill was nominated by Darrell Reynolds.
The award was presented virtually by Rick Burgess.**
