

Employee of the Quarter January, February, March 2021

FACILITIES *and* CAMPUS SERVICES

Nominator: David Barber

Daniel Decker has gone well beyond his normal duties of a maintenance planner with an unexpected increase in workload. With many of the systems and buildings within SCL at end of life, Dan (and the Zone) have been jumping from one "fire" to the next to fix unexpectedly failures. SCL planned maintenance and projects were also on the rise to extend the life of ailing buildings/systems. In addition we re-established our grease duct program, which required a tightening of the criteria for "safe" grease duct systems. Finally, at NCRE, Dan is conducting quality control/assurance walk-throughs of a 795,000 sq ft. complex with the Trades and E&PM Team to ensure that first building is ready for occupancy starting in summer 2021. *Thank you, Dan!*

Dan was nominated by David Barber.
The award was virtually presented by Rick Burgess.
