

# Dig Safe Messages for Today!

- Call before you dig!
- Protect your markings! Contractor is responsible after first mark-out. However...
- If in doubt, don't dig! Call for confirmation

Hitting a water line can create delays and add cost to your job

Hitting a water line can create delays  
and add cost to your job

Hitting a water line can create delays and add cost to your job

Hitting a water line can create delays and add cost to your job

Hitting an electric line can create delays and add cost to your job

Hitting a gas line can create delays and add cost to your job

Hitting a gas line can create delays and add cost to your job

Hitting a gas line can create delays and add cost to your job

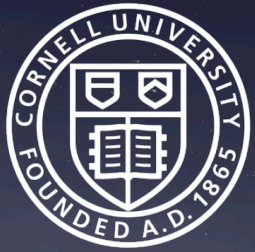

Hitting a gas line can create delays  
and add cost to your job

Hitting a gas line can create delays and add cost to your job

Call 811 before you dig!
