Mothers Rooms at Cornell

Just a reminder that Humphreys has a Mother's room available to our staff! The room includes a refrigerator, lockers, and comfortable seating. If you have questions or would like to use the room, please contact Carol Graubard at 255-8730. Also, given that many of our FCS staff work across campus, we would like to share that Cornell has Mother's rooms in various buildings across campus. Click on the below link for a directory and photo of each room.

Experiential Development Opportunities (EDO)

Effective July 9, 2018, Experiential Development Opportunities (EDOs) will be rolled out university-wide and are viewable in Workday. EDOs are "hands-on" training experiences. These opportunities are intentionally flexible in design to be adapted to departments' needs and availabilities. They may include rotational assignments, stretch opportunities, job shadowing, and volunteering. EDOs are generally short-term or project-based assignments that fall under two categories:

- **Skill Development:** Learning new skills to enhance work similar to your current level of responsibility.
- **Leadership Development:** Gaining experience in a role with advanced or broader responsibilities compared to your current position.

These efforts are a continuation of [our commitment](#) to ensuring the university is intentionally meeting current and future organizational needs by leveraging and developing the knowledge, skills and abilities of our Cornell talent. If you are interested in an EDO, discuss with your manager to determine feasibility. To apply, click the Career icon in Workday and select "Find Development Opportunity."

Living the Lime (Bike) Life in Ithaca!

Sustainability Life Recipe Series- Have you noticed the bright green bicycles decorating our streets, parks, community corners and everywhere in between? Welcome to LimeBike (now called Lime), the national bikesharing network made for you. These rides are convenient, easy to use, and cost-effective. Lime gives our community a transportation system that's cheaper and healthier—for both our planet and people—than driving a car, and way quicker than walking. See ya, Route 13 rush hour traffic! What's not to love?
