EMPLOYEE OF THE QUARTER

Photo: Rick Burgess, Adam Sutryk, Wyatt Grace, Willie Brown, Tim Ceurter  April 2019
This team has responded to over 1,000 service requests this quarter, worked extra 12-16 hour shift with some 7-8 days in a row to provide a safe and functioning campus for all students, faculty and staff.

- Pulled together to provide 24/7/365 response to all issues while sacrificing personal life time and covering each other during medical or long term leave.
- Cover for other groups that have staffing issues.
- Support any tradesperson called for emergency response or any student or parent needing help. The team paused their emergent work to provide support for parents and students during the blizzard on winter move in day. They helped them navigate campus and carried belongings into buildings as carts were not an option in the snow. They did not go home that weekend, staying on campus to provide support for any needs that came up.
- First responders for all items occurring after hours, weekends and holidays.
- Show respect to everyone they encounter, regardless of frustrations from many of those seeking help.
- Often viewed as a “mythical” group with many saying “the shift mechanic can do it” because their response always “will do” for any ask.

**Congratulations, Team!**
