November 2017

EMPLOYEE OF THE QUARTER

YAROSLAV SIKORA

Slavi, as his colleagues and friends call him, continues to go above and beyond his regular job duties and gives 110%. . He always has a smile and would help anyone if possible.

Slavi's customers notice the exceptional work that he does on a daily basis. Professor Vinay stated in a recent e-mail he wrote, "*Having just walked through it again, I find that waxed and spotless space so beautifully maintained... The person who takes care of it deserves special recognition.*"

Craig Wiggers in the Department of Physics, and Vince Kotmel also gave strong recommendations for Slavi to be recognized for providing the highest quality service to faculty, students, staff, alumni, and visitors,

Slavi is honest, respectful and always looks to please his customers. You can count on his integrity and positive attitude that never falter. He continues to show that the values for IPP are the same values that he has learned to live by.

Congratulations Yaroslav!
Nominated by Brian Goodell and Craig Wiggers
